APPENDICES

A. Hazard Alert/Correction Form
B. Job Safety Analyses
C. Worksite Inspection Forms
D. Injury and Illness Investigation Form
E. Safety Training Attendance Record
Department Information

Department Name: Viticulture and Enology

Department Chair: David Block

Address: RMI, North Building

Telephone Number: 530-752-0380

Buildings Occupied by Department

1. Building: RMI; North, South, Sensory Buildings
   Unit(s): Academic Units
   Contact: Vanessa Lieberman
   Phone: 530-304-8551

2. Building: BWF-Winery and Jackson Building
   Unit(s): Winery Staff
   Contact: Leticia Chacon Rodriguez/Vanessa Lieberman
   Phone: 530-754-9067/530-304-8551

3. Building: Vineyard Headquarters
   Unit(s): Vineyard Field Staff
   Contact: Guillermo Garcia Zamora/Vanessa Lieberman
   Phone: 530-304-6732/530-304-8551

4. Building: Henry Jacob Laboratory-Oakville Experimental Vineyard Headquarters Zone W109
   Unit(s): Oakville Vineyard Field Staff
   Contact: Guillermo Garcia Zamora (temporarily) /Vanessa Lieberman
   Phone: 530-304-6732/530-304-8551
I. Authorities and Responsible Parties

The authority and responsibility for the implementation and maintenance of the Injury and Illness Prevention Program (IIPP) is in accordance with University Policy (UCD Policy & Procedure Manual Section 290-15: Safety Management Program) and California Code of Regulations (8 CCR, Section 3203) and is held by the following individuals:

1. Name: **David Block**

   Title: **Department Chair**

   Authority: Authority and responsibility for ensuring implementation of this IIPP

   Signature: ___________________________ Date: 2/1/23

2. Name: **Vanessa Lieberman**

   Title: **Safety Coordinator**

   Authority: Direct authority and responsibility for implementing and maintaining this IIPP

   Signature: ___________________________ Date: 2/1/2023

II. System of Communications

1. Effective communications with Viticulture and Enology employees have been established using the following methods:

- Standard Operating Procedures Manual
- Material Safety Data Sheets
- Monthly departmental operations meetings
- Internal media (department intranet)
- EH&S Safety Nets
- Training videos
- Safety Newsletter
- Handouts
- Building Evacuation Plan
- E-mail
- Posters and warning labels
- Job Safety Analysis – Initial Hire
- Job Safety Analysis – Annual Review
- Other (list):
  - Online Training - Fundamentals of Laboratory Safety, Job specific training

2. Employees are encouraged to report any potential health and safety hazard that may exist in the workplace. Hazard Alert Forms (Appendix A) are available to employees for this purpose. Forms are to be placed in the Safety Coordinator’s departmental mail box. Employees have the option to remain anonymous when making a report.

3. Employees have been advised of adherence to safe work practices and the proper use of required personal protective equipment. Conformance will be reinforced by discipline for non-compliance in accordance with University policy (UCD Procedure 62 - Personnel Policies for Staff Members, Corrective Action).
III. System for Assuring Employee Compliance with Safe Work Practices

Employees have been advised of adherence to safe work practices and the proper use of required personal protective equipment. Conformance will be reinforced by discipline for non-compliance in accordance with University policy (UC Davis Personnel Policies for Staff Members- Section 62, Corrective Action).

The following methods are used to reinforce conformance with this program:

1. Distribution of Policies
2. Training Programs
3. Safety Performance Evaluations

Performance evaluations at all levels must include an assessment of the individual's commitment to and performance of the accident prevention requirements of his/her position. The following are examples of factors considered when evaluating an employee's safety performance.

- Adherence to defined safety practices.
- Use of provided safety equipment.
- Reporting unsafe acts, conditions, and equipment.
- Offering suggestions for solutions to safety problems.
- Planning work to include checking safety of equipment and procedures before starting.
- Early reporting of illness or injury that may arise as a result of the job.
- Providing support to safety programs.

4. Statement of non-compliance will be placed in performance evaluations if employee neglects to follow proper safety procedures, and documented records are on file that clearly indicate training was provided for the specific topic, and that the employee understood the training and potential hazards.

5. Corrective action for non-compliance will take place when documentation exists that proper training was provided, the employee understood the training, and the employee knowingly neglected to follow proper safety procedures. Corrective action includes, but is not limited to, the following: Letter of Warning, Suspension, or Dismissal.
IV. Hazard Identification, Evaluation, and Inspection

Job Hazard Analyses and worksite inspections have been established to identify and evaluate occupational safety and health hazards.

1. Job Safety Analysis:

   Job Safety Analysis (JSA) identifies and evaluates employee work functions, potential health or injury hazards, and specifies appropriate safe practices, personal protective equipment, and tools/equipment. JSA’s can be completed for worksites, an individual employee’s job description, or a class of employees’ job description. Completed JSA’s are located in Appendix B.

   The following resources are available for assistance in completing JSA’s:
   - Laboratory personnel, please refer to the Laboratory Hazard Assessment Tool
   - Non-Laboratory personnel, please refer to the JSA/PPE Certification Forms

A. RMI North and South – BFTV Cluster Responsibility
   - Administration Staff
   - Information Technology Staff
   - Other Staff and Faculty Office Work

B. RMI North and Sensory Building – All Labs
   - Student Researcher
   - Staff Researcher
   - Teaching Staff
   - Faculty

C. UCD and Oakville Vineyards
   - Student Researcher and Field Worker
   - Staff Researcher and Field Assistant

D. Winery Building
   - Student Winery Researcher or Assistant
   - Winery Staff

2. Worksite Inspections

   Worksite inspections are conducted to identify and evaluate potential hazards. Types of worksite inspections include both periodic scheduled worksite inspections as well as those required for accident investigations, injury and illness cases, and unusual occurrences. Inspections are conducted at the following worksites:

   1) Location: RMI North
      Frequency: Annual Inspections
      Responsible Person: Vanessa Lieberman
      Records Location: 3141 RMI North and online

   2) Location: RMI – South, 1204 and 2215
      Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman/Jennifer Radke
Records Location: 3141 RMI North and online

3) Location: RMI – Sensory, 2003 and 2007, 1000 and 1007
Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman
Records Location: 3141 RMI North and online

4) Location: RMI – BWF Winery
Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman
Records Location: 3141 RMI North and online

5) Location: RMI – Jackson Building
Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman
Records Location: 3141 RMI North and online

6) Location: UCD Vineyard Headquarters
Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman
Records Location: 3141 RMI North and online

7) Location: Henry Jacob Laboratory-Oakville Experimental Vineyard (Zone W109)
Frequency: Annual Inspections
Responsible Person: Vanessa Lieberman
Records Location: 3141 RMI North and online

Worksite Inspection Forms are located in Appendix C (C1 - General Office and C2 - Laboratory).
V. Accident Investigation

University Policy requires that work-related injuries and illnesses be reported to Workers’ Compensation within 24 hours of occurrence and state regulation requires all accidents be investigated.

Viticulture and Enology employees will immediately notify their supervisor when occupationally-related injuries and illnesses occur, or when employees first become aware of such problems.

1. Supervisors will investigate all accidents, injuries, occupational illnesses, and near-miss incidents to identify the causal factors or attendant hazards. Appropriate repairs or procedural changes will be implemented promptly to mitigate the hazards implicated in these events. Proper injury reporting procedures can be found at http://safetyservices.ucdavis.edu/ps/rmwc/wcr/injuryReporting.

The Injury and Illness Investigation Form (Appendix D) shall be completed to record pertinent information and a copy retained to serve as documentation. It can be completed by either the supervisor or the Department Safety Coordinator.

3. Note: Serious occupational injuries, illnesses, or exposures must be reported to Cal/OSHA by an EH&S representative within eight hours after they have become known to the supervisor. These include injuries/illnesses/exposures that cause permanent disfigurement or require hospitalization for a period in excess of 24 hours. Please refer to EH&S SafetyNet #121 for OSHA notification instructions.
VI. Hazard Correction

Hazards discovered either as a result of a scheduled periodic inspection or during normal operations must be corrected by the supervisor in control of the work area, or by cooperation between the department in control of the work area and the supervisor of the employees working in that area. Supervisors of affected employees are expected to correct unsafe conditions as quickly as possible after discovery of a hazard, based on the severity of the hazard.

Specific procedures that can be used to correct hazards include, but are not limited to, the following:

- Tagging unsafe equipment “Do Not Use Until Repaired,” and providing a list of alternatives for employees to use until the equipment is repaired.
- Stopping unsafe work practices and providing retraining on proper procedures before work resumes.
- Reinforcing and explaining the need for proper personal protective equipment and ensuring its availability.
- Barricading areas that have chemical spills or other hazards and reporting the hazardous conditions to appropriate parties.

Supervisors should use the Hazard Alert/Correction Report (Appendix A) to document corrective actions, including projected and actual completion dates.

If an imminent hazard exists, work in the area must cease, and the appropriate supervisor must be contacted immediately. If the hazard cannot be immediately corrected without endangering employees or property, all personnel need to leave the area except those qualified and necessary to correct the condition. These qualified individuals will be equipped with necessary safeguards before addressing the situation.
VII. Health and Safety Training

Health and safety training, covering both general work practices and job-specific hazard training is the responsibility of the David Block and immediate Supervisor(s) or their delegate as applicable to the following criteria:

1. Supervisors are provided with training to become familiar with the safety and health hazards to which employees under their immediate direction and control may be exposed.

2. All new employees receive training prior to engaging in responsibilities that pose potential hazard(s) through the online training provided by the UC office of the President.

3. All employees given new job assignments receive training on the hazards of their new responsibilities prior to actually assuming those responsibilities through online or in-person training classes or direct training by the supervisor or delegate.

4. Training is provided whenever new substances, processes, procedures or equipment (which represent a new hazard) are introduced to the workplace by the supervisor or delegate.

5. Whenever the employer is made aware of a new or previously unrecognized hazard, training is provided.

The Safety Training Attendance Record form is located in Appendix E.
VIII. Recordkeeping and Documentation

Documents related to the IIPP are maintained in/at/on:

Viticulture and Enology Safety Coordinator’s computer and in each laboratory or other facility.

The following documents will be maintained within the department’s IIPP Binder for at least the length of time indicated below:

1. Hazard Alert/Correction Forms (Appendix A form).
   Retain for three (3) years.

2. Employee Job Safety Analysis forms (Appendix B form)
   Retain for the duration of each individual’s employment.

3. Worksite Inspection Forms (Appendix C form).
   Retain for three (3) years.

4. Injury and Illness Investigation Forms (Appendix D form).
   Retain for three (3) years.

The following documents will be maintained within the department’s IIPP Training Records Binder for at least the length of time indicated below:

1. Employee Safety Training Attendance Records (Appendix E form).
   Retain for three (3) years.
IX. Resources

1. UC Office of the President: Management of Health, Safety and the Environment, 10/28/05

2. UC Davis Policy and Procedure Manual, Section 290-15, Safety Management Program

3. California Code of Regulations Title 8, Section 3203, (8CCR §3203), Injury and Illness Prevention Program

4. Personnel Policies for Staff Members, Corrective Action, UC PPSM 62
